To whom this may concern,

I would like to take the time to recommend a certified nursing assistant, Zetty Allen. I have known Zetty for over 3 years while working as a Registered Nurse Supervisor at a local rehabilitation center in Enfield CT. Zetty picks up shifts with our facility and has always made it to work each shift on time, pleasant attitude and very helpful demeanor toward our patients, staff, and families. Zetty provides safe and compassionate care for our residents and their families. Zetty is always enthusiastic about going above and beyond than what is expected of her, and has made great connections with our residents, family and staff. Zetty is an excellent team player.

To conclude, I highly recommend Zetty Allen as a certified nursing assistant for your facility or loved one. Zetty has a contagious sense of well-being and goes at length for every patient in her care.

Thank you for your time,

Emily Borden RNS
